

# Software Tester - QA Engineer

in Norwalk, CT 06854

As an integral part of our product team, you will be responsible for testing 3rd party SpaceMouse integrations in the latest 3D software packages as well as testing upcoming new 3Dconnexion products before they hit the market.

This is a great opportunity for someone who is starting a technical IT career in the dynamic 3D Software environment.

For this position, we are seeking a young spirit, engaged and motivated person with professional communication skills, technical grasp, willingness to learn and a passion for innovative products.

## Job Responsibilities

- Install, test and document the latest 3D Software packages from various vendors, from traditional 3D Design to the latest game engines.
- Continuously optimize our test and documentation procedures.
- Work closely with the product team to identify and resolve product-related issues.
- Assist in developing 3D software-specific product communication assets (videos and copy)

## Skills and Requirements

- Passion for 3D software
- Good communication skills, both in oral and written English.
- Technical knowledge of Microsoft Windows
- Bachelor in Computer Science or similar is an advantage
- Internet and IT savvy, ability to utilize new software.
- Personal attitude that strives for challenges
- Willingness to sporadically travel domestically and abroad.
- Be a team player with a positive mind.
