

Software Product Manager

in Wrocław, Poland

As Software Product Manager, you will play a pivotal role in strengthening our partnerships with software technology companies. Your primary responsibility will be to lead the integration efforts of our products into their solutions, utilizing our Software Development Kit (SDK).

This role offers a unique opportunity to work at the intersection of software technology and collaboration, shaping the future of our product ecosystem.

Job Responsibilities

- Forge and nurture relationships with software technology partners to identify opportunities for integration and collaboration, maximizing value for both parties.
- Collaborate closely with our engineering and product teams to ensure the successful integration of our SDK into partner software.
- Oversee integration projects, ensuring they are delivered on time and within scope while maintaining a high level of quality.
- Act as the primary point of contact for partner discussions, maintaining clear and effective communication throughout the integration process.
- Communicate successful integrations to our marketing department, providing them with the necessary information to promote our partnerships effectively.

Skills and Requirements

- Master's degree in software development, computer science, or a related field
- Software coding skills in one or more languages to facilitate communication between our software development team and partners.
- Proven experience in partnership management, software integration, or related roles.
- Exceptional interpersonal and communication skills.
- Self-motivated with a passion for innovation and collaboration.
- Project management skills, including the ability to manage multiple projects simultaneously.

Conditions

- Permanent contract.
- Working Location: 3Dconnexion Polska Wrocław office.
- Trial period: 6 months.

3Dconnexion

3Dconnexion® is the leading provider of award-winning devices for 3D design and visualization professionals. Our mission is to help people produce better designs, faster and more comfortably. 3Dconnexion products provide a more intuitive and natural way to interact with computer-generated 3D content. They support today's most popular and powerful mechanical engineering, media & entertainment, and architectural CAD applications. 3Dconnexion maintains offices worldwide with headquarters located in Monaco, Munich, and Norwalk.
