

Software Engineer / Software Architect (m/f/d)

in Munich, Germany

Job Description

Under the supervision of the R&D Director, the Software Engineer will be responsible to design and deploy 3Dconnexion software solutions that will improve the 3D experience given by our products.

In his/her role, the Software Engineer will have the unique opportunity to forge the new generation of 3Dconnexion software solutions and/or driver components. With a deep knowledge of programming languages and 3D environments, he/she will contribute as well on the improvement and maintenance of current applications.

For this position, we are seeking a motivated professional, with passion for programming languages, pragmatic working style, and excellent communication skills.

Job Responsibilities

- Develop architectures and software solutions for the next generation of 3Dconnexion applications
- Participate to the development and improvement of existing software projects
- Identify and evaluate new software technologies and components for the constant improvement of software quality and stability

Technical Skills and Requirements

- Master's Degree in Computer Science, Computer Engineering or similar
- Previous relevant experience in a technical role
- Very good knowledge of object-oriented programming and, in particular, of the following languages: C/C++, .NET (C#, WPF)

3Dconnexion

3Dconnexion® is the leading provider of award-winning devices for 3D design and visualization professionals. Our mission is to help people produce better designs, faster and more comfortably. 3Dconnexion products provide a more intuitive and natural way to interact with computer-generated 3D content. They support today's most popular and powerful mechanical engineering, media & entertainment and architectural CAD applications. 3Dconnexion maintains offices worldwide with headquarters located in Munich, Monaco and Norwalk (CT).

- Good knowledge of agile methodology, modelling, and testing
- Past programming experience in 3D (OpenGL) / game development is a big plus
- Knowledge of Mac and Web development is not mandatory, but appreciated
- Interest in CAD and 3D software is an advantage
- Excellent communication skills, both in oral and written English
- High motivation to meet and exceed goals
- Personal attitude that strives for challenges and learning on the job
- Team and success-oriented work style

Conditions

- Permanent contract
- Working Location: 3Dconnexion Munich office
- Benefits: competitive remuneration, relocation assistance, 30 days of annual leave, company retreats
