

Product Manager (m/f)

in Munich, Germany

Job Description

As an integral part of our product team, you will identify customer demands, specify product requirements and support product communication internally and externally.

For this position, we are seeking an engaged and motivated person with professional communication skills, technical grasp, strong willingness to learn and a passion for innovative products.

Job Responsibilities

- Work close with customers to identify and document market requirements
- Translate the company vision into detailed action plans
- Analyze product requirements to ensure they can be worked on
- Find new ways to improve product appreciation and customer intimacy
- Develop product communication in cooperation with our marketing teams

Skills and Requirements

- Master's degree in Management Engineering or similar
- Excellent communication skills in spoken and written English
- First experience in a comparable role
- Knowledge of 3D Software is a plus
- Personal attitude that strives for challenges
- Team and success-oriented work style

Conditions

- Permanent contract
- Vacation: 30 days
- Trial period: 6 Months
- Working Location: 3Dconnexion Munich office
